Re: Cannonsburg Water District's Unaccounted-For Water Loss Reduction Plan,
Surcharge and Monitoring
Case No. 2014-00267

Dear Mr. Clarkson:

At the Informal Conference held in this matter on July 13, 2015, you indicated that C.I. Thornsburg was in the process of installing radio transponders for reading replacement bypass meters, and that you anticipated the replacement radio-read meters would be fully operational within a week. You agreed that if the radio-read replacement meters were not operational by the end of the week, you would advise the Commission of the anticipated date by which they would be functioning.

In your letter to Staff Attorney Ann Ramser dated July 23, 2015, you indicated that the replacement meters were still not in working order, and that you were in contact with C.I. Thornsburg, but had not been advised when the meters would be operational. Please advise the Commission if the radio-read replacement meters are now operational. If they are not, provide within seven days of your receipt of this letter an explanation for the delay and the anticipated completion date.

If you have any questions about this letter, please contact Staff Attorney John Park, at (502) 782-2589.

Sincerely,

Jeff Derouen
Executive Director

JBP/ph
